

Family Portrait Session

STYLE AND IDEAS

I will always meet up before the session to discuss your ideas, themes and the style you wish to create, to make the photo session personal to you.

I recommend looking at images on Google, Pinterest and other websites to help inspire ideas.

DRESS CODE

Portraiture is mainly about the person / people. That's why it's important to keep clothing simple. It's up to you what you would like to wear and it's important you are feeling comfortable in what you wear during the session.

Some recommendations:

- Avoiding clothes with bright logos or colours as it draws away from the person / people.
- Basic colours & neutral tones work best.
- Keep the tones similar.
- Keep jewellery simple and minimal.
- Neat, casual, relaxed clothing.

PROPS

Please feel free to bring along any props or items that are symbolic to you and your family. Whether it's a hobby you are inspired by or an outfit you want to be photographed in. I want to represent you and your passions.

I look forward to capturing your special moments with you!

Yvonne
